The Address Book of Children's Authors and Illustrators

Essential for every classroom – meet the people behind the stories, poems and illustrations that fill your classroom and your children's lives. Compiled by Gervase Phinn, this delightful book introduces you to the life and works of 102 of our most loved and well-known children's writers and illustrators. Michael Morpurgo and Geraldine McCaughrean, Berlie Doherty and Benjamin Zephaniah, Paul Geraghty and Korky Paul – find out about childhood experiences and adult working life. Each entry includes a mini biography, containing details of family life, pets, likes and dislikes, idiosyncrasies, favourite words, food and places, a photograph, signature and a list of selected works. To enable children to correspond with authors and illustrators, contact addresses and websites are included. Ideal for children to follow up books they have already read, this book will also prove invaluable to extend your children's love of literature. This book is simply a goldmine.

Entrants include:

- Malorie Blackman
